Empowering and supporting parents in Northern Virginia

SCAN’s Parenting Classes in both English and Spanish use evidence-based curricula to teach about child development, physical and emotional needs, routines, effective discipline methods, handling stress and building family cohesion.

A SCAN Parent Support Group is a place where parents can share their daily parenting frustrations and triumphs in a supportive environment and learn new strategies from each other to deal with parenting challenges.

Parent Cafés & Workshops offer strategies and introduce community resources to help parents manage specific parenting challenges, such as positive discipline, communication, conflict and relationships.

PARENT ED PROGRAM IMPACT:

More than 200 parents gain parenting knowledge and skills every year, affecting hundreds of families in the community.

Hundreds of children build life-changing connections with one another and volunteers, helping them build their resiliency.

In just 3 hours a week for 8 weeks, volunteers can make a life-changing impact on children and parents in the program.

GET INVOLVED WITH SCAN’S PARENT EDUCATION PROGRAM!

1. Become a parenting group facilitator and support others in the amazing adventure of parenting.
2. Make a donation to SCAN.
3. Become a children’s program volunteer and create a connection with kids.
